

Civic Committee Monthly Meeting
March 4, 2014

Attendance: Ed Rohrbach, Rodney Jester, Mick Fitzharris, Tom Wheeler
Guest Heidi Hoegger

Meeting convened at 7:03 P.M.

Roads

Meadow Ln

Along Meadow Ln (Heidi Hoegger (2113 Meadow Ln), Finn Hannover(2115 Meadow Ln) and Alton Dahl (2117 Meadow Ln)) there are several manholes, and several large pot holes which are becoming more dangerous . One sanitary sewer manhole has been paved up to it and it is tilted cavernous concrete area. Now you can see concrete which at one time you could not. Heidi is concerned that it might be a sink hole. The whole issues are drainage. She believes it is sinking because the sanitary sewer is acting as a storm sewer and it is the only drainage between Heidi's and Finn's house. Dahl's leasehold is constantly draining. Civic is planning on putting in a swale to take care of the drainage.

That road was slated for repairs but the contractor, Downing, had health issues that pushed his work schedule back and then inclement weather conditions this winter. NCC should be contacted.

Concerned about the gas manhole where the snow melted all around it. Is that a problem? It looks intact but sitting in a pool of water. Need to be checked.

Speed Bump

The speed bump located in front of 2116 The Highway fills up with water and in cold weather freezes and builds up with ice. Speed bump was legal when it was installed and originally was not a problem until they installed the curve to stop the flooding down the street. At least fifteen years old. Downey Contractors can take care of it.

Snow Plowing Policy

Policy we do not do individual request for plowing.

Permits

Field Theater rain date money is refundable.

Meeting adjourned 7:29 P.M.

Respectfully submitted
Elizabeth Resko
